## SUMMARY

- Around 13+ years of professional experience in software systems analysis, design, and development primarily in **JavaScript ecosystem** and **.NET Technologies**
- Good exposure to each of the phases of **Software Development Life Cycle (SDLC)** especially **Agile Model**, developing projects from stage of concept to full implementation.
- Hands-on experience in **Angular, AngularJS, Bootstrap, Material, JS, TS, Schematics, C#, Web APIs, MVC, WCF, Entity Framework, Enterprise Libraries, Design patterns** etc.
- Proven **ability to lead, manage** project resources, **interact** with clients, **coordinate** and work in achieving high levels of **productivity** and **efficiency** in complex, dynamic and challenging environments
- Strong communication and interpersonal skills

## WORK EXPERIENCE

### **Technical Specialist - Synechron Technologies Pvt. Ltd. (Sept 13 - Present)**

Product **Clearsight Enterprise suite**    Client **Riskconnect**

- Design and develop core UI framework. Support App teams to develop individual apps
- Backend Framework enhancements, new modules and tools. Performance tuning of application.
- Migration of legacy modules.
- Drive technical decision, perform design/code reviews. Perform technical assessment of incoming new projects

### **Technical Lead - SunGard Systems Pvt. Ltd. (Oct 09 – Sept 13)**

Product **IntelliMATCH Suite**    Client **Citibank/ Barclays**

- Design and develop REST services, reconciliation services, configuration tools and TFS support tools
- Provide integration support to UI Development team
- Manage Communication module using WCF services
- Development around application performance improvement activities and migrations
- Client support for critical issues

### **Senior Developer - Persistent Systems Pvt. Ltd. (Apr 07 – Sept 09)**

Product **Rackspace – ARIC**    Client **Rackspace**

- Design and develop web application along with WCF services.

Product **Institutional Repository (Zentity)**    Client **Microsoft Research Group**

- Design and develop custom server controls and web pages
- Design and develop RDF and RDFS library in Core framework

Product **Applied Identity**    Client **Applied Identity**

- Design and develop framework for processing of Crystal Reports
- Implement business logic layer, and integrate modules

### **Junior Developer - Indicus Software Pvt. Ltd. (Sept 05 – Apr 07)**

Product **Wins Niiza System and Golf-K System**    Client **Wins Niiza**

- Develop application modules like Check-in, Checkout, Card processing modules etc.
- Develop controllers for Card Reader and TUP machines to handle/ process machine events

Product **Contineo**

- Created Web Services
- implemented POP client

## SKILL SET

Frontend:

**Angular, Angular JS, JavaScript, Typescript, HTML, CSS, SCSS, Yeomen, Schematics**

Backend:

**C#, .Net 4.5, NodeJS, MVC5.0, ASP.Net Web APIs, Entity Framework, WCF**

Design:

**OOPS, Design Principles, GoF Design patterns, Enterprise application patterns, UML Diagrams**

Data Management:

**Oracle 11g, SQL Developer**

Testing:

**Jasmin, Karma, Headless Browsers, NUnit, Selenium, Protractor**

Build and Deployment:

**NX, Angular-cli, Webpack, Grunt, Bower, SVN, Github, Bitbucket, Yeomen**

Debugging and Performance:

**Splunk, DotCover, DBMonitor, Chrome Dev Tools, ANTS profilers**

Knowledgebase management:

**Tortoise SVN, Github, Bitbucket, Confluence, MS SharePoint**

Process Management:

**JIRA, MS Outlook, Office, Visio, Excel, PowerPoint, Teams**

Operating Systems:

**Windows 7/8/10, Android, iOS**

## ACHIEVEMENTS:

**Spot Awards, iStar Awards, Surpass Awards and Performance Awards** from previous and current employer

## EDUCATION:

Bachelor of Engineering (IT),  
P.C.C.O.E., Pune, MH, India
